Accessibilité

# Unow

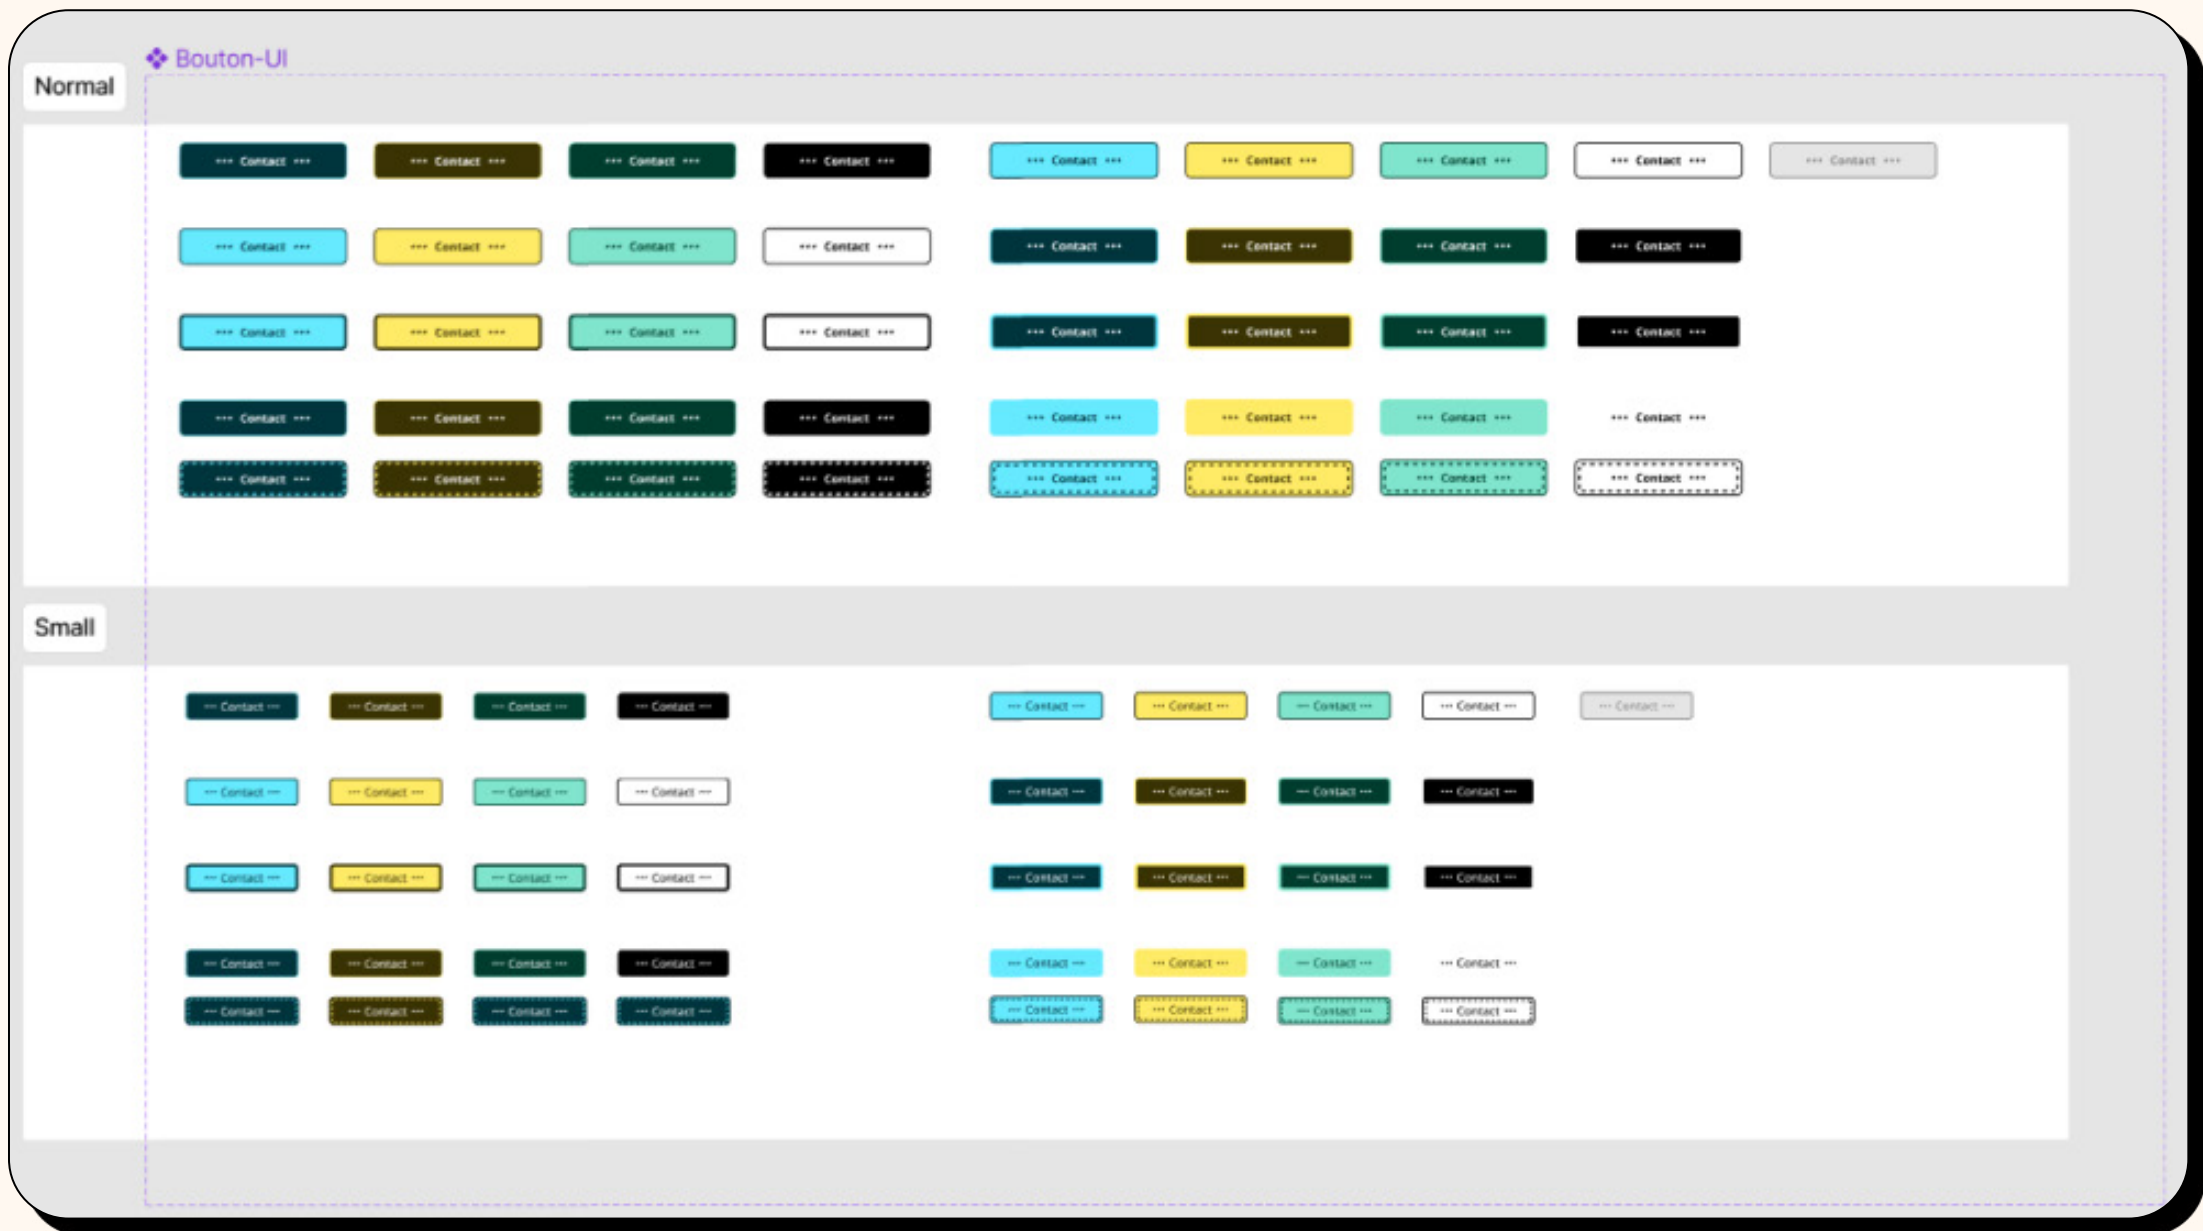

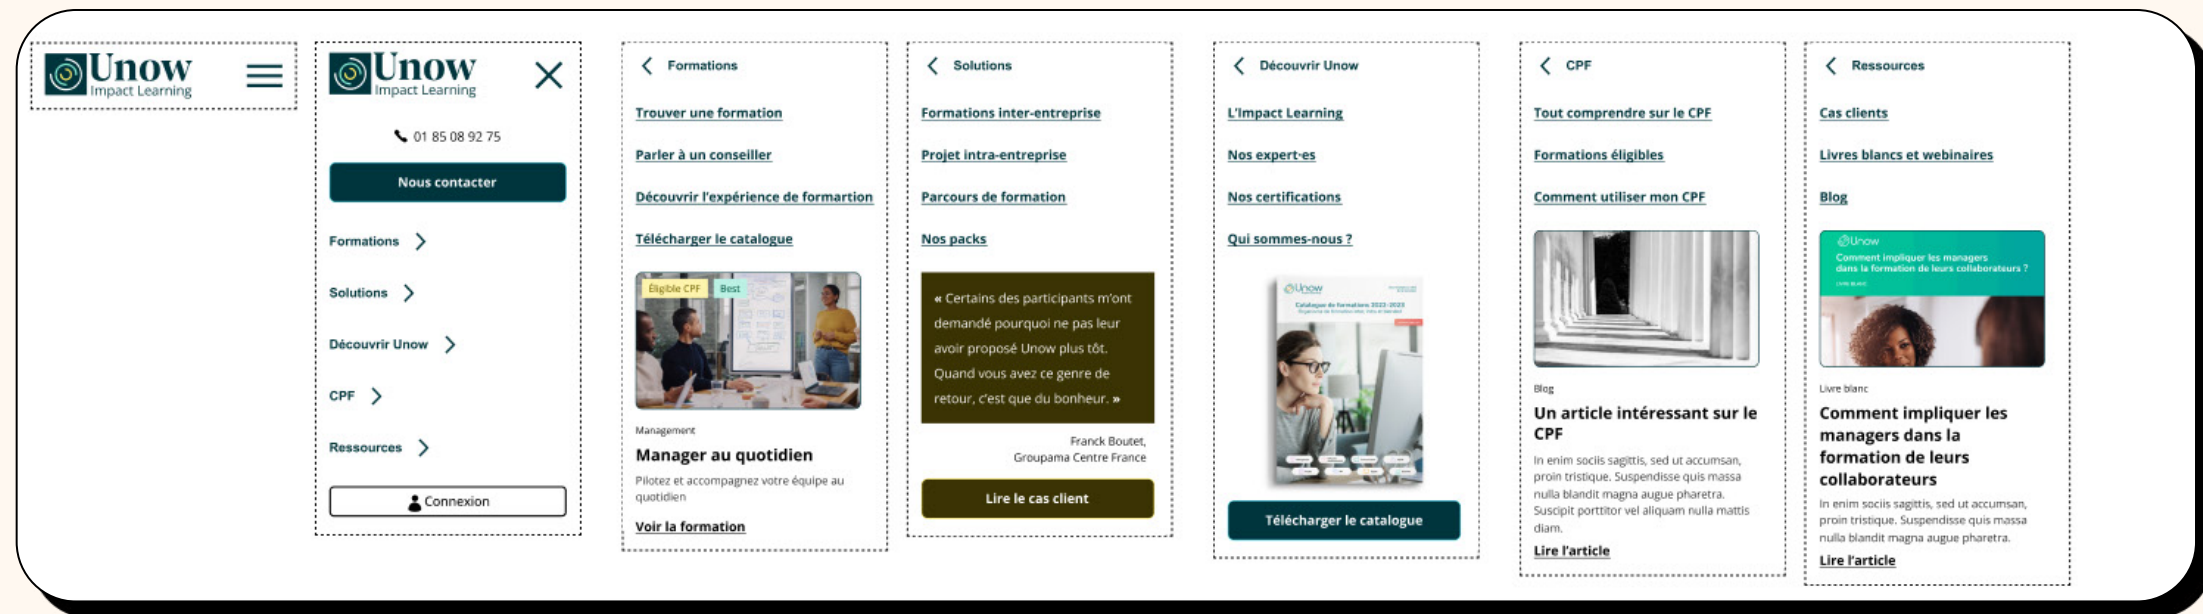

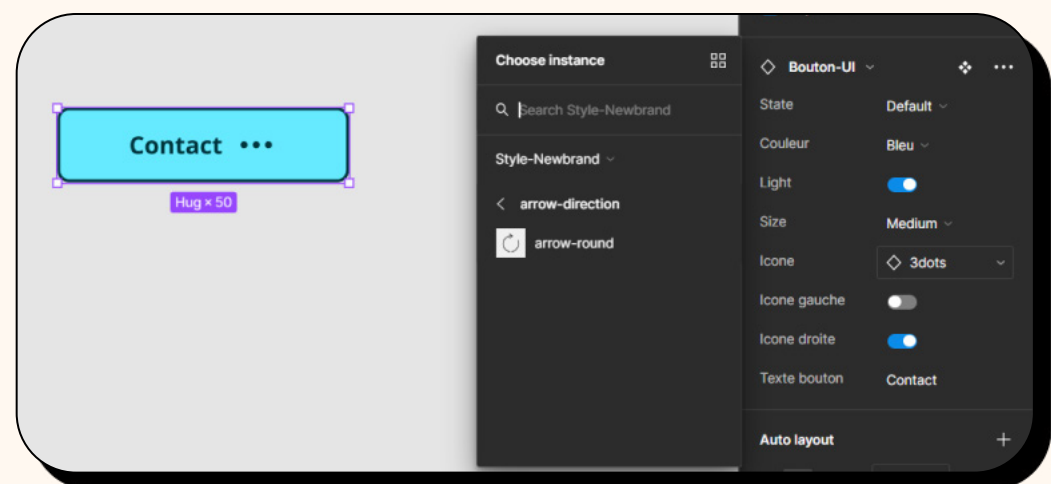

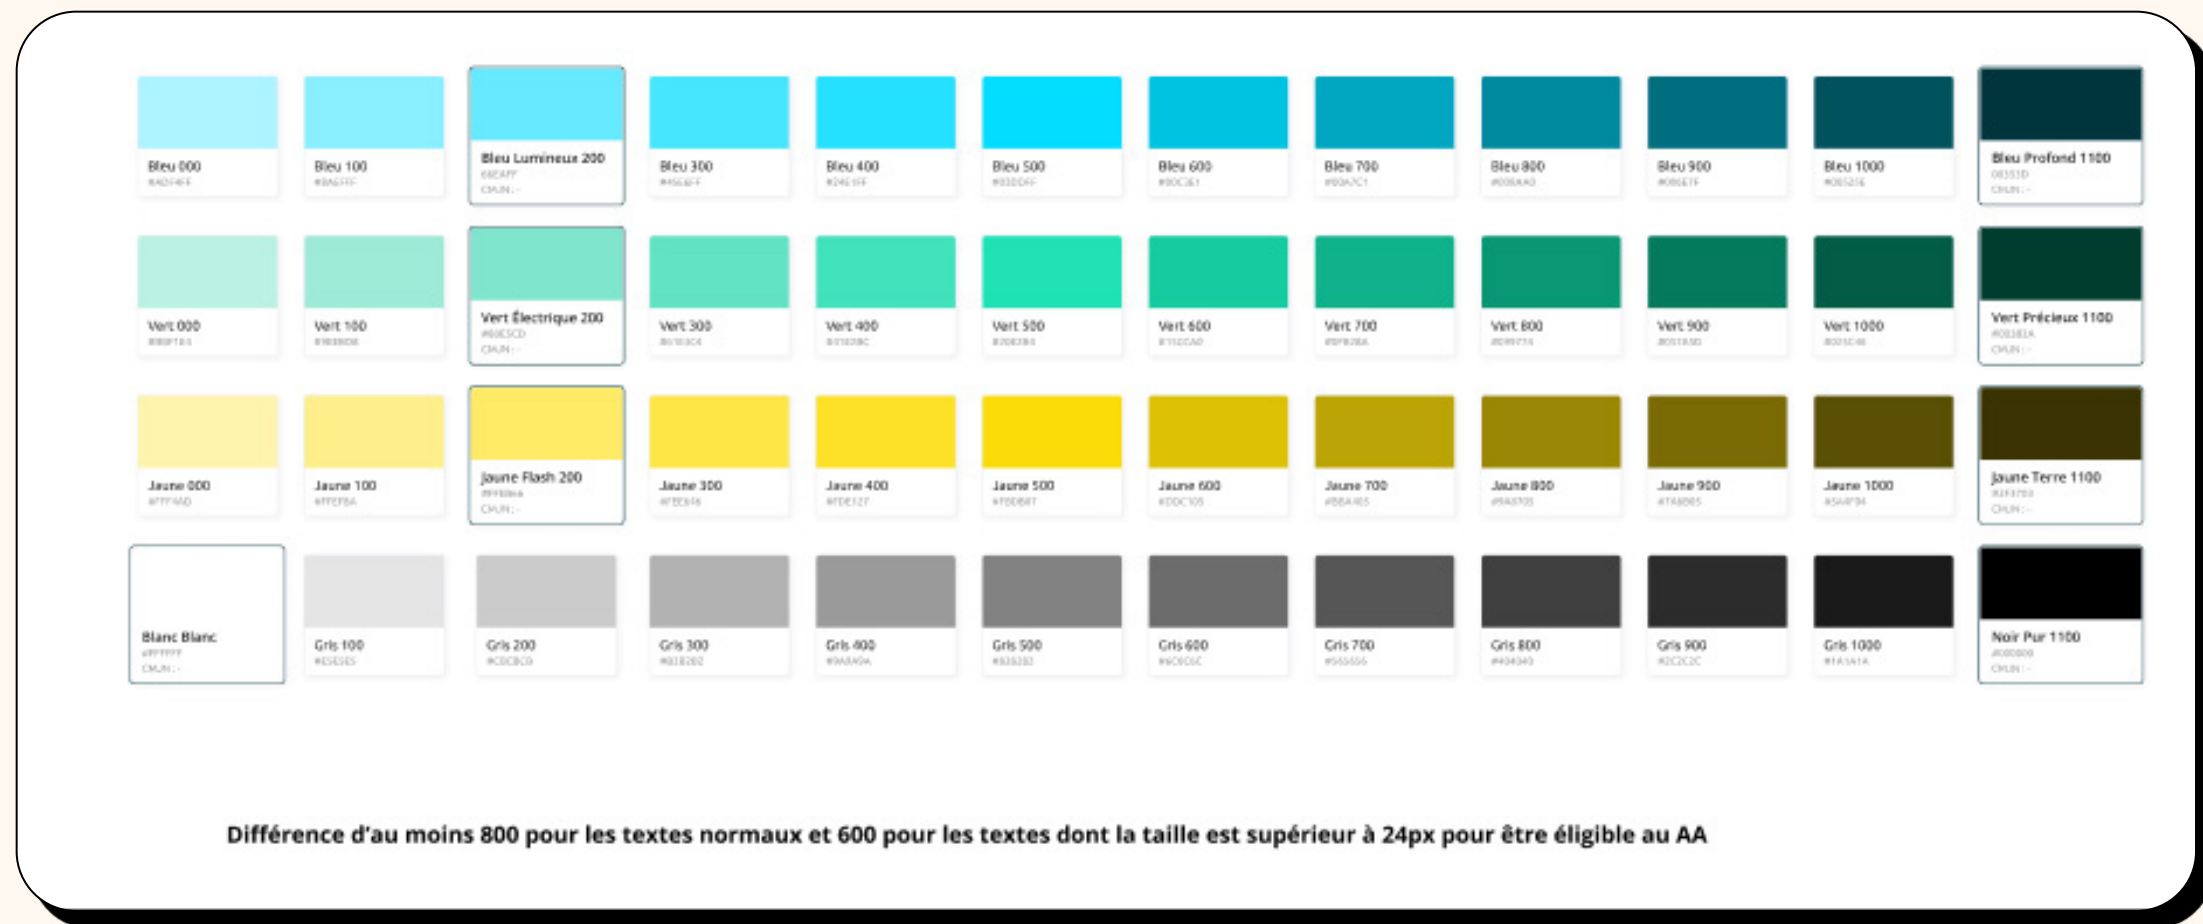

Unow est un organisme de formation en ligne pour lequel j'ai travaillé en CDI.

Designer intégré à l'équipe produit, j'ai travaillé sur la refonte du parcours utilisateur, du sujet d'onboarding, de la restitution apprenant côté UX mais aussi de la mise en place d'un design system répondant à la nouvelle charte graphique avec en tête une forte composante d'accessibilité.

J'ai aussi réalisé la documentation interne sur zeroheight pour une meilleure utilisation de la solution et du design system.

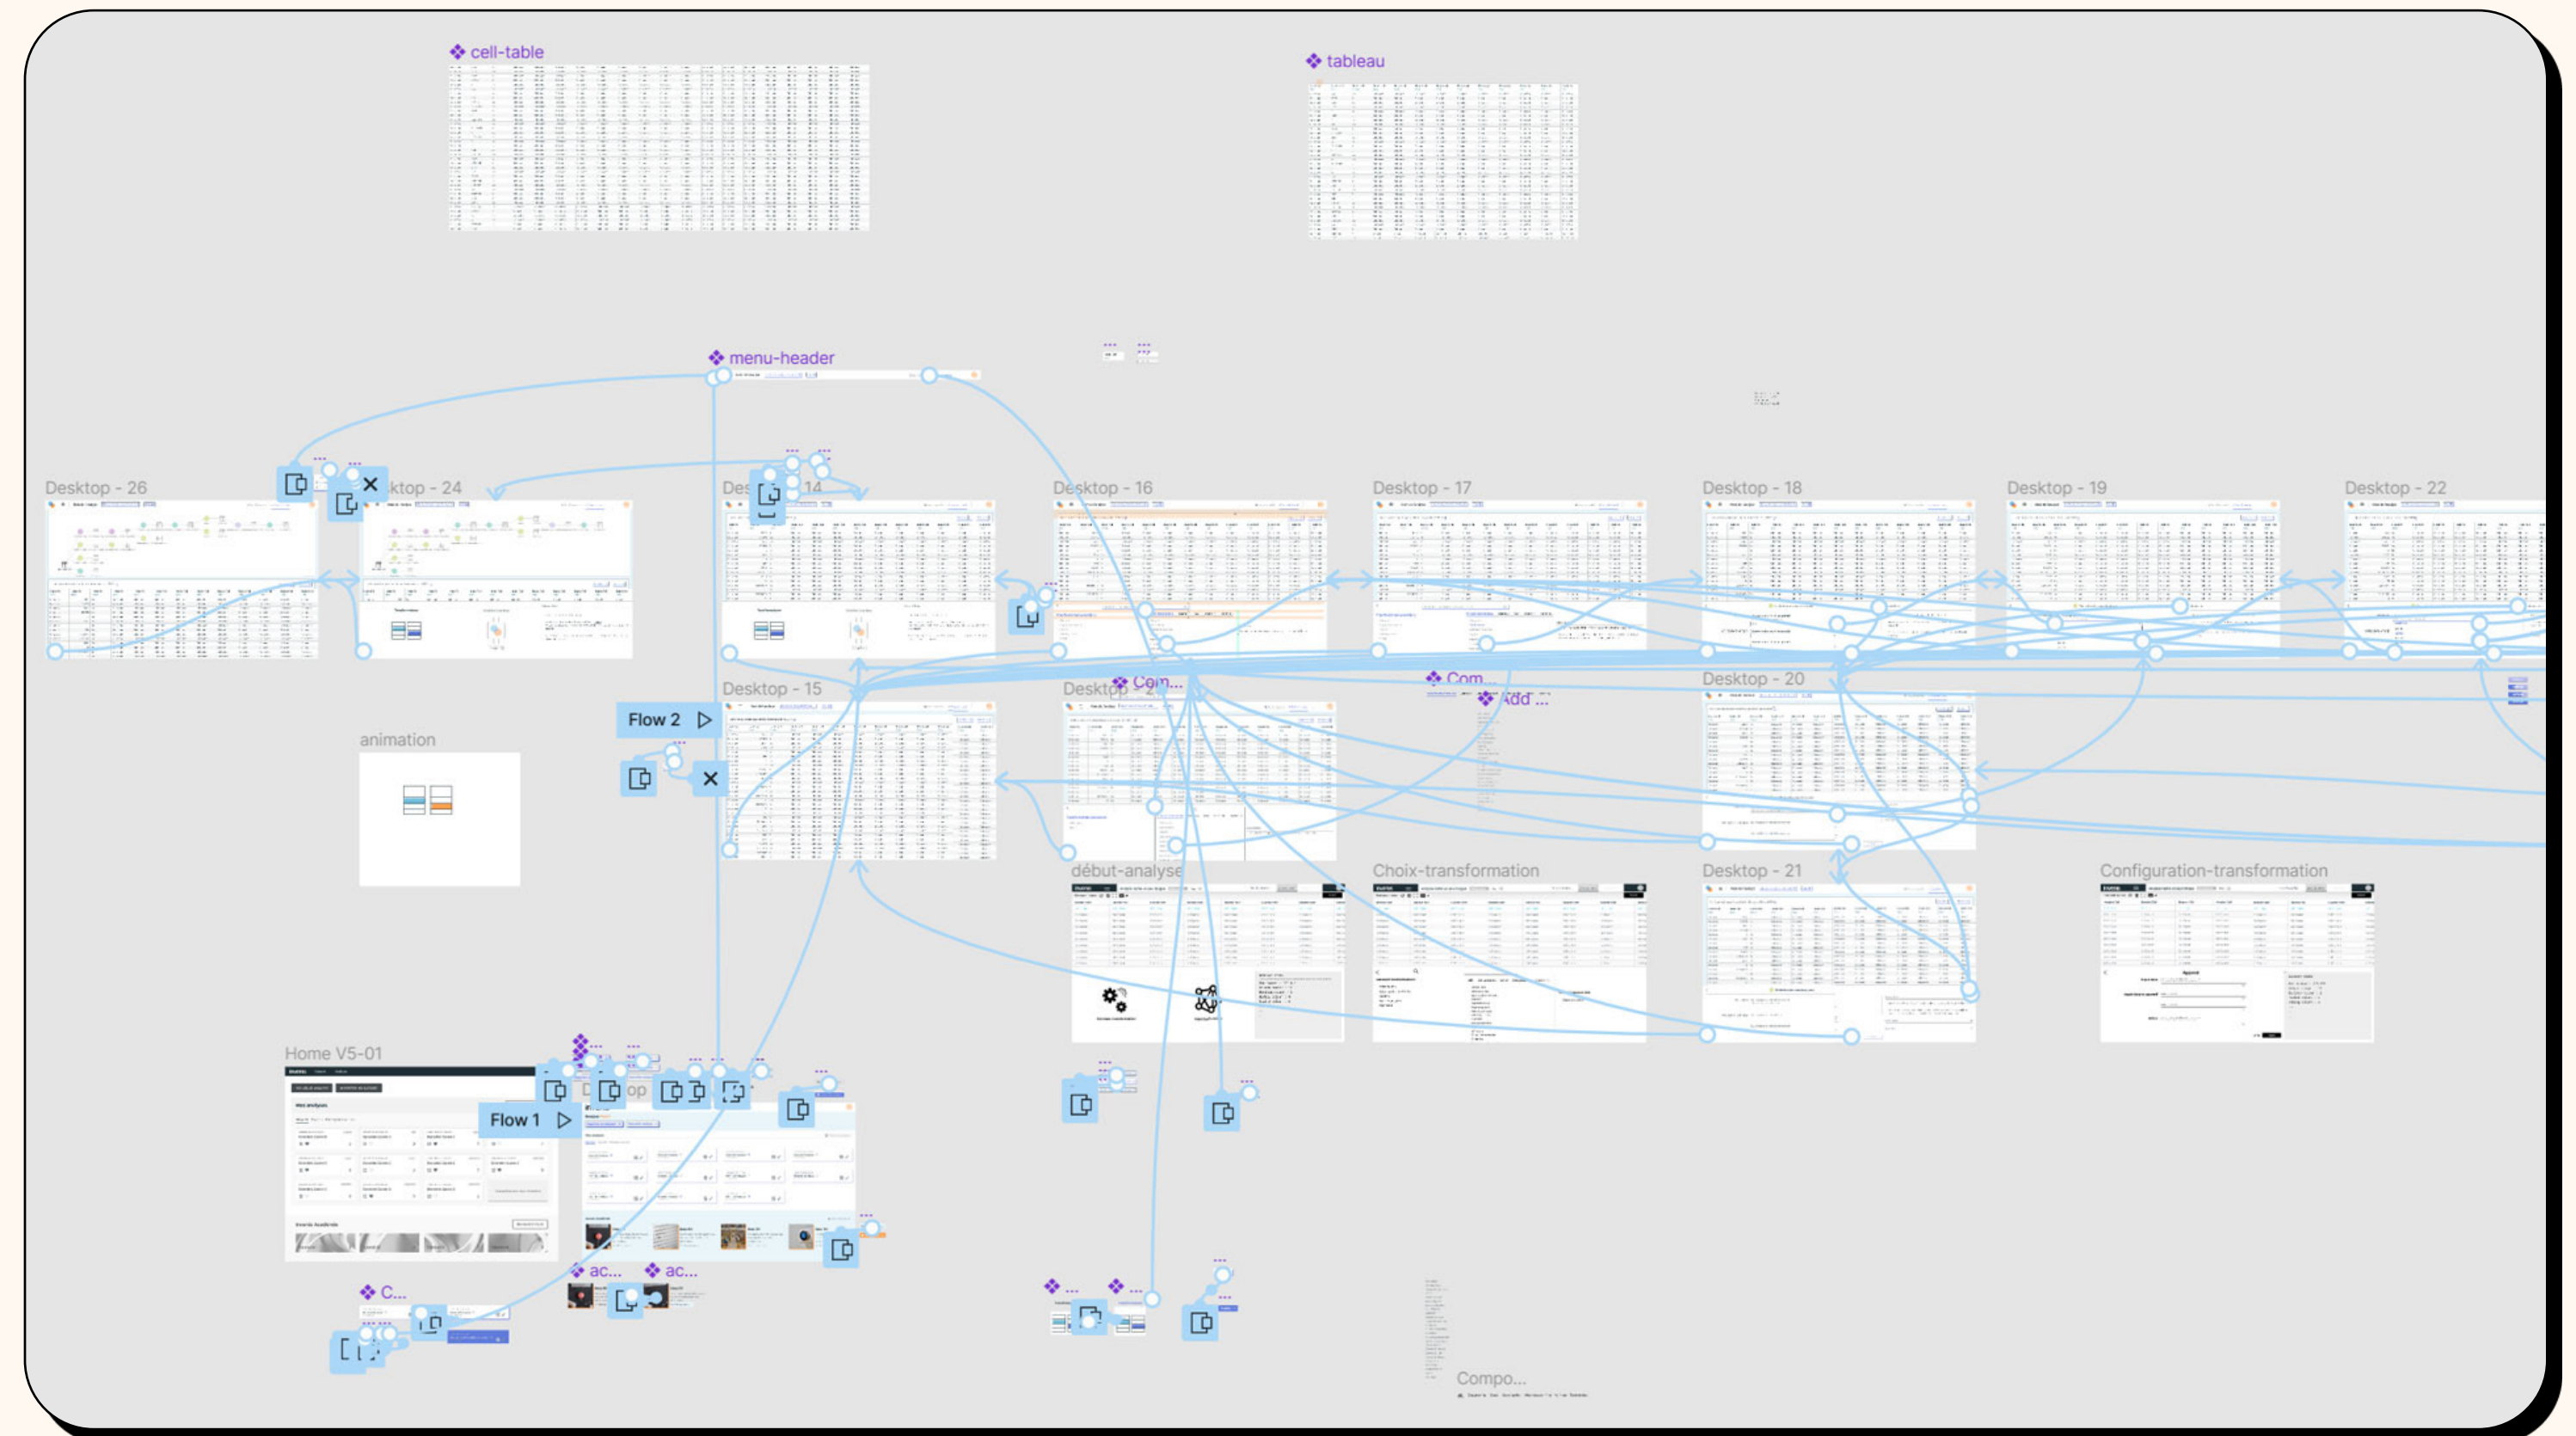

# Invenis

Invenis est une solution SaaS de data prep accessible à tous que j'ai accompagné à ses débuts pour créer un produit qui soit à la fois simple mais aussi technique autour de la data.

La recherche utilisateur a été effectuée auprès des premiers usagers, aussi bien interne qu'externe sur des problématiques de manipulation de la data.

La suite a été la mise en place du design system pour rendre l'équipe d'intégration autonome sur les maquettes UX.
